DICT CALABARZON Regional Office · 15 April 2026

SUMMARY

I am an Information Technology student at City College of Calamba. I enjoy turning real business problems into working web applications, from the database design to the screens people actually use.

EXPERIENCE

Back-end Developer (Thesis Project)
City College of Calamba, Calamba, Laguna · 2026
- Designed the database and built the ordering and POS modules in Laravel.
- Coordinated with group members and the adviser through chapter revisions.
- Prepared the system and documentation for the final defense.

Film / Video Editor
Personal & freelance projects, Calamba, Laguna
- Edit video projects, including 3D and motion pieces.
- Videos are published in the Graphic Design Portfolio project on this site.

Graphic Designer (Photoshop)
Personal & freelance projects, Calamba, Laguna
- Design logos, posters, branding, and social media graphics in Adobe Photoshop.
- Created a brand identity (Hide the Code), a back-to-school ad, a typographic poster, and shirt designs for the IT Society.

Freelance Web Developer
Self-employed, Remote · 2025 – Present
- Build responsive pages and small web tools from client briefs.
- Built a graphic design portfolio site with animations and a Laravel contact endpoint.

PROJECTS

PastryLiberty · Thesis project · 2026
A web-based ordering and point-of-sale system for Liberty Food Mart.
Role: Back-end developer (group thesis) **Tech:** Laravel, PHP, MySQL, Blade, CSS

Graphic Design Portfolio · Client / personal website · 2025
A responsive, animated portfolio site with a Laravel-backed contact form endpoint.
Role: Front-end developer **Tech:** HTML, CSS, JavaScript, Laravel

CREATIVE WORK

- Graphic design: logos, posters, branding, and social media designs (Adobe Photoshop).
- Brand identity “Hide the Code” with logo set, palette, typography, and mood board.
- IT Society shirt designs and a 3D shirt preview video.
- Full gallery and videos are in the Graphic Design Portfolio on my portfolio site.
